# Tricky moments

Read each story. Circle the best choice. Then write the red flag on the line.

**1. A video says: "Get 10,000 free gems. Go to this website and type your game username and password."**

What is the best choice?

- ☐ Type your login fast before the offer ends
- ☐ Close it and tell a trusted adult
- ☐ Send the link to your friends

**2. A pop-up flashes: "Congratulations. You are the 1,000,000th visitor. Enter your address to get your prize. 60 seconds left."**

What is the best choice?

- ☐ Close the pop-up and keep your address private
- ☐ Type your address before time runs out
- ☐ Type a friend's address instead

**3. Your friend's account messages you: "I'm locked out of my game. Send me the code that just came to your mom's phone."**

What is the best choice?

- ☐ Send the code to help your friend
- ☐ Ask for the code in a different app
- ☐ Don't send it; tell your parent and check with your friend in person

**4. A fun quiz says: "Find your secret agent name. Type your street name, your school and your birthday."**

What is the best choice?

- ☐ Fill it in; it's just a game
- ☐ Skip it; those are personal facts
- ☐ Only type your school

**5. You see a video of a famous singer saying: "I'm giving away free tablets to the first 100 kids who share this and send me their phone number."**

What is the best choice?

- ☐ Share it and send the number fast
- ☐ Believe it because you can see the singer talking
- ☐ Don't share or send anything; ask a trusted adult whether it is real

**6. A player you don't know in a game says: "You're really good. Let's talk on a different app. Don't tell your parents, they'll make you stop playing."**

What is the best choice?

- ☐ Tell a trusted adult and use the block or report button
- ☐ Move to the new app but don't tell your real name
- ☐ Keep it a secret so you don't lose your game
