

01

The free gems pop-up

While you play, a chat message from 'GameStaff_Rewards' says you won 5,000 free gems. You need to log in on their page in the next 10 minutes.

What do you do?

02

The code read-back

A player you have chatted with for weeks says, 'My code went to your phone by mistake, can you send it to me?' You just got a text with a code.

What is really happening, and what do you do?

03

Your account will be deleted

A text says your gaming account will be deleted tonight for cheating unless you verify at a link. You have never cheated.

What do you do?

04

Best friend, strange message

Your best friend's account messages, 'Can you vote for me in this contest? Just log in here,' with a link. It does not sound like them.

How do you check?

05

Move to another app

A stranger in game chat offers you a rare item for free but says, 'Let's talk on a different app where the game can't see.'

What is the red flag, and what do you do?

06

Trade first, pay later

A player offers to trade you double the value tomorrow if you send your best skin today.

What do you do?

07

I already clicked

You clicked a free currency link and typed your username and password before you realized it was fake.

What are your next steps?

08

The unlocker download

A video says you can unlock every paid outfit with a free file from a website. Your friend says it worked for them.

Is it worth trying?

09

A code you did not ask for

Late at night, your phone gets a login code text for your game account. You were asleep and did not try to log in.

What does this tell you, and what do you do?

10

Gift card for a prize

A message says you won a new console but must pay a \$25 shipping fee with a gift card first.

Scam or real?
