

SLIDE OUTLINE · GRADES K-2 · 8 SLIDES

My password is mine

An editable PowerPoint version of these slides is included in the lesson pack.

My password is mine

- Today we learn about passwords
- A password is a secret just for you

SLIDE 1 · SPEAKER NOTES

Welcome students to the rug. Hold up the toothbrush and ask who would share it. Keep this light and fun. The goal is a simple rule they can remember.

A password is like a toothbrush

- It belongs to one person
- We do not share it with friends

SLIDE 2 · SPEAKER NOTES

Let two or three children explain why we do not share toothbrushes. Say: a password is the same. It is just for you.

A password opens my account

- It can be a word, a picture or a login card
- It is like a key to my own room

SLIDE 3 · SPEAKER NOTES

Show what a password looks like at your school (picture password, login card, QR badge or typed word). Cover any real password before you show a card. Ask: what if someone else had your key?

Who may help with my password?

- My grown-up at home
- My teacher at school
- Not friends, big kids or people in games

SLIDE 4 · SPEAKER NOTES

Point to the rule on the board. Ask students to name their grown-up at home (no need to share names out loud if they would rather not).

OK to share or keep private?

- Thumbs up: OK to share
- Lock: keep private

SLIDE 5 · SPEAKER NOTES

Practice with three examples before the worksheet: favorite color (thumbs up), password (lock), home address (lock). Students show the hand signals.

I need help, please

- Raise your hand
- Say: I need help, please
- Show the grown-up the screen

SLIDE 6 · SPEAKER NOTES

Practice the sentence in a whisper voice, a regular voice and a brave voice. Say clearly that nobody gets in trouble for asking for help.

My trusted grown-ups

- One at home
- One at school
- One more helper

SLIDE 7 · SPEAKER NOTES

Introduce the builder worksheet. Point to the school helper names on the board so students can copy them.

My promise

- My password is mine
- I ask for help when I need it

SLIDE 8 · SPEAKER NOTES

Have students say the promise together. Send the family page home with the trusted grown-ups worksheet.
